Note

The Canadian Institute of Actuaries is the national organization of the actuarial profession in Canada. It was established by an Act of the federal parliament on March 18, 1965. The original organization of actuaries in Canada, the Actuaries Club, was founded in 1907 with 24 charter members, all actuaries living and working in Toronto. The Canadian Association of Actuaries was established October 8, 1946 and included all members of the Actuaries Clubs of Toronto and Winnipeg as well as a group of Montreal actuaries. This was the organization that formed the membership basis of the Canadian Institute of Actuaries in 1965. Since its formation, the Canadian Institute has grown steadily to its present size of about two thousand, five hundred member Fellows.
