Summary information

Repository:	University of Manitoba Archives & Special Collections
Title:	Henry Bruce Chown fonds
ID:	Mss 17, Pc 14, Tc 10
Date:	1936-1945 (date of creation)
Physical description:	1.8 m of textual records. 18 photographs. 1 audio reel.
Language:	English
Dates of creation, revision and deletion:	

Administrative history / Biographical sketch

Note

Dr. Henry Bruce Chown was a prominent Winnipeg physician who is best known for his work on the prevention of sensitization of Rh-negative women. He was born and raised in Winnipeg. He received his B.A. from McGill University in 1914. After four years of military service he enrolled in medicine at the University of Manitoba, receiving his M.D. in 1922. Upon graduating from the Manitoba Medical School, Dr. Chown embarked on a three-year, post-graduate training course in pediatrics and pediatric pathology. On completion, he joined the Children's Hospital as a pathologist and assumed a number of teaching and administrative posts which included Professor and Head of the Department of Pediatrics of the University of Manitoba. He became known for his work in the areas of prevention of kernicterus by replacement, transfusion, and the prevention of stillbirth by early delivery. The Winnipeg Rh-Institute was established in 1944 with Dr. Chown as Director. His first wife Gladys Webb died in 1948. He married Allison Grant a year later.

Custodial history

The fonds was donated to University of Manitoba Archives & Special Collections by the Rh Institute in 1979 and 1980. A third instalment was donated by Dr. Marion Lewis, an associate of Dr. Chown's, in 1980.

Scope and content

The fonds consists of personal and professional papers, photographs, tapes, and clinical records and studies dating from 1936 to 1979. The papers deal with diseases affecting newborns and children, and genetic and anthropological blood group studies. An almost complete reprint collection of Dr. Chown's publications form an important part of the collection. The collection will be of interest to a variety of specialists, immunologists, pediatricians, hematologists, pathologists, and medical historians.

Notes

Title notes

Restrictions on access

Records containing personal medical health information have been restricted.

"Obtaining Access to Restricted Records Containing Personal Health

Information.":[http://umanitoba.ca/libraries/units/archives/media/](http://umanitoba.ca/libraries/units/archives/media/Obtaining_Access_to_Restricted_Records_Containing_Personal_Health_Information_(Amendments).pdf)
