## Administrative history / Biographical sketch

---

### Note

Kenn Perkins has worked in motion pictures, advertising and animation since the mid-1960s. In the 1970s, Kenn Perkins Animation was responsible for the majority of the Canadian content for Sesame Street. Also in the 1970s, the company was the first Manitoba production house to install motion control. In the 1980s, Kenn Perkins Animation introduced computer animation to Manitoba and became the sixth user worldwide of SoftImage (even before Disney used it).

Kenn Perkins Animation produced commercials and animation for markets as diverse as Brazil, Germany, the United States and Canada. Perkins' company employed many Winnipeg animators. By 1980, "just about everybody who has done animation in this city has passed through Kenn Perkins' studio" (Neil McInnes, Winnipeg Tribune July 26, 1980, p 49). Some of the more notable animators trained and developed at Perkins' studio include Academy Award nominees Cordell Baker and Chris Hinton. The fonds contains many hand-drawn and painted animation cels. A one-minute animated commercial could take eight weeks to produce and may contain up to 1,200 individual drawings.

### Custodial history

A2017-098 was donated to the University of Manitoba Archives & Special Collections by Kenn Perkins in August, 2017.

---

## Scope and content

---

This fonds contains records from Kenn Perkins' career in animation and advertising. It includes animation cels, film reels, DVDs, tapes and notebooks.
